REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The newly added limitation "folded back to form a pleat" overcomes the 102 rejection. The new recitation "shade for covering a window" is further limiting. Applicant has provided excerpts from numerous declarations that support the position that the rosette is not a "shade for covering a window" (claim 11). Further to this end, Applicant points to portions of the CAFC decision in the Newell case that confirm that a "pleated shade member" (readable on the rosette) is different, by way of contrast, to a "pleated shade for covering a window" (not readable on the rosette). It is noted that the 103 rejection in this application utilized the rosette as a secondary, teaching reference. To address the use of the rosette in this capacity, declarations from the prosecution history of US patent No. 5,692,550 (participant in the Newell case) which were made of record in the Newell proceedings make it clear that the rosette is not analogous art when considering shades for covering a window. Consequently, one of ordinary skill in the art would not look to the rosette to supply the formerly asserted teaching of providing one edge of the Corey et al '601 shade with a pleated fold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
